Economics graduate and MSc student (BSE) with strong econometrics and data skills, seeking to apply them to financial stability surveillance in the ASEAN+3 region.

EDUCATION

Barcelona School of Economics — **Barcelona, Spain**
MSc in Economics and Finance — 09/2026 – 07/2027 (expected)
Relevant Courses: Econometric Methods 1, Foundations of Data Science, Macroeconomics 1 and 2, Financial Econometrics, Macroeconometrics for Policy Analysis, Forecasting and Nowcasting with Text as Data.

Durham University — **Durham, United Kingdom**
BSc (Hons) Economics, 2:1 — 09/2023 – 06/2026
Relevant Courses: Applied Econometrics, Game Theory and its Applications, Monetary Economics.
Dissertation: *An investigation into personality traits as a determinant of marriage market outcomes* (supervisor: Professor Andis Sofianos). Estimated a continuous logit model on German Socio-Economic Panel (SOEP) data to derive optimal weights of personality in partner selection.

PROFESSIONAL EXPERIENCE

Economic Development Board (EDB) — **Singapore**
Planning Intern — 06/2025 – 08/2025

- Utilised an input-output analysis in Excel using SingStat data (2020–2025) to estimate forward and backward linkages between Singapore's industries, as the basis for a study of the country's competitiveness in attracting foreign direct investment.
- Conducted quantitative and qualitative research using MTI and UNCTAD publications, and WRDS and World Bank datasets.
- Presented findings weekly to a team of about 10 non-economists, and delivered the final research project to 2 members of senior management.

Centennial Asia Advisors — **Singapore**
Economic Research Intern — 11/2022 – 12/2022

- Researched the G20 summit, cigarette tax in Singapore and the Malaysian election under the supervision of 2 professional economists.
- Wrote economic commentary for the weekly newsletter and presented findings to the CEO each week.

PROJECTS

Weekly ASEAN+3 Macroeconomic Research — 10/2026 – present
alexbogaars.github.io

- Publish weekly notes on macroeconomic and financial developments across the ASEAN+3 region, covering topics such as central bank methodologies and macro-finance in ASEAN+3.
- As part of the project, a database on macroeconomic data for ASEAN+3 is maintained to estimate financial stability.
- First note compared the monetary policy methodologies of ASEAN+3 central banks.

SKILLS

Technical: R, Python, Stata, MATLAB, Excel, PowerPoint, Git and GitHub, LaTeX
